Workshop
Microlocal analysis and partial differential equations
- schedule -

Monday 24/02/2020 (room **001**)
12:15 – 13:30   Sandro Coriasco (Torino): *Group properties of pseudo-differential operators and their applications*

Tuesday 25/02/2020 (room **101**)
10:30 – 11:30   Petar Kunštek (Zagreb): *Shape derivative techniques in optimal design*
11:30 – 12:30   Marko Erceg (Zagreb): *Friedrichs systems as dual pairs*

Wednesday 26/02/2020 (room **101**)
10:30 – 11:30   Ivan Ivec (Zagreb): *H-distributions on Hörmander spaces*
11:30 – 12:30   Ivana Vojnović (Novi Sad): *Defect distributions applied to differential equations with power function type coefficients*
